*The number of students participating in an education abroad experience was calculated according to Institute of International Education (IIE) Open Doors Reporting standards. This method counts unique students and does not count students multiple times if they studied abroad more than once. Students are counted according to their primary major.

**For definitions of the geographical regions see: <http://www.iie.org/Research-and-Publications/Open-Doors/Data/Fact-Sheets-by-Region/2012>.
